The best Is yet to come

2024

The year 2024 in our nation was a year of facing strong challenges for the Cuban church, between the economic crisis and the inflation crisis in products to the energy crisis and emigration. It is difficult to do ministry in Cuba but with the Lord we can always achieve it. We feel that Cuba is a hidden treasure that needs to be discovered.

This year every congregation in the Cuban church in general experienced growth. We made four trips to the island and we managed to impact more than 8000 leaders and pastors and more than 2,700 young people in each province. Our ministry has grown so much that it is almost impossible to have meetings with less than 900 people, I believe this is a move of God.

For this reason our ministry has focused on supporting pastors and missionaries spiritually, medically and financially,. We have also devoted effort and time to raising the generation that will heal and build Cuba.

We want to let you know that in our 4 trips to Cuba, we have seen the hand of God move in every area we meet and in every meeting, and despite the trying situation that is happening in their country, the Cuban people are hungry for the manifest presence of God. We have seen people being touched by the Holy Spirit, giving testimony of what God has done during the realization of these times. We have seen people be healed and set free from generational illnesses. This is a brief summary of everything we did. If you would like more information or a longer report, please write to us at this address.

Our ministry has been able to bless more than 500 families, with food, support and spiritual care.

We have planted 20 new churches and open 12 new Mission fields that will become potential churches in 2025.

- We have provided medicine and first supply for people in poverty. More than 1000 lb in medicine, humanitarian aides etc.
- Everything is control by the government, so we give the medical supplies to the churches, and they distributed it with the help of doctors.
- Because of this testimony the church is becoming a house of bread and the hands of Jesus in the community.
- At this moment we are helping to build four pastoral houses with their places of worship
- We were able to have influence in more than 25 denominations and more than 300 churches.
- we also bought a Houses for a new church and Apostolic sending center. We cannot do all these things without your generous investments.
- We were able to hold several events during the year in Havana and Matanzas, highlighting the youth camp where we were able to minister for 4 days to more than 300 young people, giving them food and lodging and also helping them with transportation.
- Our desire is to provide a place of training, empowerment and safety for pastors and leaders to learned and make their ministry more effective.
- Our ministry is now operating national level with ambassadors in 5 provinces we want to see a head leader in all the provinces in 2025.

Kingdom in action

On our last trip we were able to visit and help with food to more than 60 pastoral families. Last November, when Hurricane Rafael passed through the province of Artemisa, our ministry was the first aid received by 8 pastoral families and their congregations. We blessed them with money, food, medicines and Bibles, clothes and shoes.

We have given more that 30,000 lb of rice to pastors, missionaries and people in need.

The inflation in Cuba is affecting so many families specially pastors, some of them only eat once a day because they don't have the money.

We are currently supporting 80 pastors, 10 missionaries, and 10 church planters. Also, we have blessed more that 400 with financially offering.

I know some of you would like to do a one-time give sponsoring a pastor in Cuba or some of you may be able to give one time a year. We would like to give you this opportunity to also be part of transforming the life of our pastors and their families.

In 2024 we did 20 conferences in 4 trips, empowering Pastors, leaders, youth and businesspeople.

Touching more than 30,000 people in one year.
